

Terms of Use

These Terms of Use are applicable to all users of ClinHealth. Users should read, understand and accept these Terms when accessing ClinHealth. If a given user has not done this, or does not agree with the contents of these Terms of Use, that user should not make use of any of the services provided via ClinHealth.

By accepting these Terms of Use, the user enters into an agreement with ClinHealth made up by the contents of these Terms, in order to regulate the user's access and use of the ClinHealth. Users which accept these Terms of Use hereby represent and warrant that:

They accept to be bound by these Terms of Use, either individually, or in representation of an organisation;

They are capable, under the terms of the law applicable to them, to be legally bound by and comply with these Terms of Use;

Their use of the ClinHealth will be carried out in accordance with all applicable laws and regulations;

In case users publish results produced from ClinHealth or using ClinHealth by any means, they are obligated to cite:

In the event of doubts concerning the Terms of Use, ClinHealth may be contacted at: ggadjev@geophys.bas.bg.

For information on the processing of personal data on users which is carried out via the ClinHealth, please see the ClinHealth privacy policy.

1. Services provided

The service will generate reliable, comprehensive and detailed studies of the impact of lower atmosphere parameters and characteristics on the quality of life and health risks for the population in our country. It uses a synergetic application of extensive computer simulations on the supercomputer Avitohol, combined with sophisticate analysis of the parameters and characteristics of near surface atmosphere. In this way the impact of the atmosphere on the human health and quality of life can be thoroughly investigated. The users are cross-disciplinary, from the domains of atmospheric physics and environmental science, allergology and epidemiology, as well as national and municipal policymakers.

Tagline: ClinHealth produces comprehensive data about indexes and metrics that quantify the impact of atmosphere parameters and characteristics on the quality of life and health risks for the population.

2. Copyright / Intellectual Property

All rights are reserved by the National Institute of Geophysics, Geodesy and Geography of the Bulgarian Academy of Sciences, Sofia, Bulgaria, and are protected by international copyright laws.

3. Membership or subscription fees

ClinHealth is free for every user and no registration is required.

4. User data protection

The output of ClinHealth belongs to the users and we have no authority to use these results for our own benefit or to share them with others. The output link and output data are kept for 1 (one) week and then they are automatically deleted.

5. Liability

ClinHealth shall not be liable for any damages suffered as a result of your use of this website or your use, modification, submission, copying, distribution, or downloading of the materials. In addition, in no event shall ClinHealth be liable to you in association with the website or materials for any indirect, punitive, special, exemplary, incidental, or consequential damage (including loss of business, revenue, profits, use, data or other economic advantage) however it arises, whether for breach of contract or in tort, even ClinHealth has been previously advised of the possibility of such damage.

6. Disclaimer

The materials on the website are provided "As is" and all express or implied conditions, representations and warranties are disclaimed by ClinHealth and its third party providers. Neither ClinHealth nor its third party providers make any representations, warranties, or guaranties as to the quality, suitability, truth, accuracy or completeness of any of the materials contained on the website.
